About Me

MCA graduate with interests in software development, data science, cybersecurity, and computer networking. Skilled in Python, SQL, machine learning, and data visualization through academic projects. Quick learner with strong problem-solving skills and a passion for building efficient software solutions.

Experience

- Intern at CDAC-Kolkata**
→ March 2026 - Ongoing Onsite
- Google for Developers – AI-ML Virtual Intern.**
→ Completed a 10-week program focused on deploying machine learning models using Python, NumPy, and Scikit-learn.
- AWS Academy | Data Engineering Virtual Intern**
→ Managed cloud-based datasets and optimized data retrieval using SQL during a 10-week specialized track.
- Acmegrade | Cyber Security Virtual Intern**
→ Underwent 1 month of intensive training in vulnerability identification and security protocols.
- FOVEON, Techno Main Salt Lake | Technical Team Head**
→ Led the technical department and managed cross-functional teams (2023–2024)

Certifications

- OCI Data Science Certified** – Oracle
- OCI AI Foundation Certified** – Oracle
- Network Security Fundamentals** – Palo Alto

Technical Skills

- Programming: Python, Java, SQL
 - Data Science: Numpy , Pandas
 - AI-ML : Pytorch , TensorFlow , OpenCV
 - Backend Framework : Flask , FastAPI , Django
 - Web Technologies: HTML, CSS, JavaScript
- Database: MongoDB, MySQL, ChromaDB
 - OS: Linux, WIndows
 - LLM: RAG, Ollama, Langchain, FAISS
 - Concepts: OOPS, Shell Scripting
 - Others: AWS, Docker, Vs Code, Git, GitHub, Jupyter

Technical Projects

- AI Surveillance System**
Built an AI surveillance application that performs real-time face detection, recognizes authorized users, and captures images of unknown individuals using Python and OpenCV.
- PrivateGPT Pro – Offline Local LLM RAG**
Built an offline multi-user RAG system that enables semantic document search and AI-powered question answering using Python, FastAPI, MongoDB, and local LLMs.
- Youtube Music Converter**
Built a Python-based YouTube Music Converter that enables users to download and convert YouTube videos into high-quality MP3 files using FastAPI and FFmpeg.
- Online Music Library**
Built a database-driven Online Music Library application using Java and Oracle SQL for efficient music storage, retrieval, and playlist management.
- Wedding Event Management**
Designed and implemented a Wedding Event Management System enabling users to manage events, bookings, vendors, and customer information through an intuitive web interface.

EDUCATIONAL QUALIFICATION

Master's in Computer Applications (MCA) Techno India University , Kolkata, West Bengal	CGPA – 7.34 2024-2026
Bachelor's of Computer Applications(BCA) Techno Main Salt Lake , Kolkata, West Bengal	CGPA – 8.21 2021 - 2024
Higher Secondary Education Krishnagar High School	PERCENTAGE – 71 2019 - 2021
Secondary Education Krishnagar High School	PERCENTAGE – 72 2019

LANGUAGES

- ENGLISHFull **Professional** Proficiency
- HINDIFull **Professional** Proficiency
- BENGALINative or **Bilingual** Proficiency
